Defining the C2 Enterprise

Outcome

- Enablers -"Things" needed by industry to understand AF C2 Enterprise Plans and justify business cases.
  - Near term: Accelerate Integration through existing programs
  - Long term: C2 Enterprise Capabilities

Put $ against what you want and tell industry what it is.

Acquisition Approaches

- Near Term
    - Hire a system integrator for C2ISR system integrator
    - Establish <u>Program</u> Target High payoff integration
    - Node Contracts
    - Longterm
    - Integration "IPT"
    - Program Incentives for legacy alignment
    - Blue funding
    - Management Approach - Program $ prioritized against enterprise/integration objectives

- Long Term

Acquistion Approaches
